

Program G: Lallie Kemp Regional Medical Center

Program Authorization: R.S. 17:1519.1 A. (1)

Program Description

The mission of the Lallie Kemp Regional Medical Center is to:

1. To provide access to high quality medical care to residents of Louisiana, regardless of income or insurance coverage, and at a level of care appropriate to their medical needs.
2. To maintain facility environments conducive to quality, accredited residency and other health education programs and work cooperatively with Louisiana medical schools and other health education institutions to afford the maximum opportunity for clinical training in the hospitals.
3. To minimize the cost to the State of providing health care to the uninsured by operating its hospitals efficiently, cost effectively, and in accordance with the standards of the hospital industry, and by maintaining a base of patients with third party support, particularly Medicaid.
4. To work cooperatively with other health care programs, providers and groups at the state and community levels in order to maximize the health care resources available to all the citizens of Louisiana.

The goals of Lallie Kemp Regional Medical Center are:

1. Prevention: Health care effectiveness with an emphasis on preventive and primary care.
2. Partnership: Integrated health delivery network with internal and external community partners.
3. Performance: Improved management information systems and fiscal accountability.

Lallie Kemp Medical Center, an acute care hospital in Independence was opened as an establishment to help the indigent and needy patients of Tangipahoa, St. Helena and East and West Feliciana Parishes. While the primary focus is the medically indigent, the hospital is mandated to provide health care to all citizens of the State of Louisiana. Up until 1939, Lallie Kemp Hospital was named Florida Parishes Charity Hospital. In 1954 the Florida Parishes Charity Hospital was re-named and re-dedicated in memory of Mrs. Lallie Kemp, a member of the State Welfare and Hospital Board and a main instrument in opening the facility. In 1997, under Act 3 of the 1997 Regular Session it mandated the establishment of Lallie Kemp as part of the LSU Health Sciences Center Health Care Services Division. The hospital services a four parish area. Multiple services are targeted at the pediatric and adolescent populations. Programs, clinics, services such as immunization clinic, asthma care program, ADD management program, diabetes services, well child care and general pediatric clinic are just a few provided to the service population. The medical center not only provides acute, primary, general critical care medical services to indigent, Medicare and Medicaid populations in the hospital's service area but the facility also provides support functions such as pharmacy, blood bank, respiratory therapy, anesthesiology, various diagnostic services and other support functions of a non-medical nature, such as administration, maintenance, housekeeping, mail service, purchasing, accounting, admissions and registration. As of fiscal year 2000, Lallie Kemp has 68 staffed beds and provides approximately 11,000 days of inpatient care, 13,000 outpatient visits and serves as an integral force in health care delivery in this area. The medical center is accredited by regulatory agencies including Joint Commission on Accreditation of Health Care Organizations (JCAHO), Centers for Medicare and Medicaid Services (CMS), Clinical Laboratory Improvement Act (CLIA) and numerous others. Lallie Kemp contracts for physician and anatomical services and works cooperatively with medical schools and other health education institutions to broaden the opportunity for clinical training in the hospital. Lallie Kemp provides training to students from local vocational and technical schools and services students in the disciplines of nursing, radiology and dietary services. Lallie Kemp also provides a clinical training cooperative for graduate nursing students in affiliation with local universities.
